Writtle University College Enrichment Contribution

For Further Education
Students the annual
Enrichment Contribution
is just £95!

What is the Enrichment Contribution?

The Enrichment Contribution is an annual charge that enables the College to provide a range of extra-curricular activities that helps broaden horizons, develop new skills and supports students' personal and social development.

Why do we ask students for an Enrichment Contribution?

The payment is designed to maximise enrichment activities on offer and helps prevent those from less wealthy backgrounds being disadvantaged, as the cost is spread across all learners therefore maximising cost effectiveness.

What does it go towards?

The Enrichment Contribution supports a range of activities and services that enhance our students' learning experience and includes things such as:

- Enrichment trips and visits
- Gym membership
- Students' Union memberships
- Minibus service

Is there any financial assistance available to help with costs associated with attending college?

If you have difficulties paying this fee, the College may be able to help you. Please contact **info@writtle.ac.uk** for further information.
